ABOUT **SIMPLICITY.**

Every One Of Our Tubs Is Backed With Quality Guarantees & A Lifetime Of Customer Support.

WWW.JETTACORP.COM

At Jetta, we've been manufacturing quality tub systems in our Edmond, Oklahoma location since 1981. And while a lot of trends have come and gone since then, one thing has never changed: our belief that a product is only as great as the service behind it.

That has become an even greater focus for us today as more and more people look into walk-in tubs for their homes. Buying a walk-in tub is so much more than a product purchase. It's a decision that carries with it the possibility of greater independence and comfort, but often comes with fear and insecurity. There are a lot of things to consider, and there may not be a lot of resources you can trust to truly have your best interest in mind.

At Jetta, we're out to change that.

WHY JETTA?

We don't want to just sell you a walk-in.

We want to give you peace of mind about the entire experience.

SIMPLE, 3-STEP ORDERING PROCESS

We'll walk you through the three key steps in selecting the most suitable tub for you: the right **Accessibility**, your preferred **Amenities**, and your choice of **Accessories**.

NO LEAKS, NO WORRIES

Every walk-in tub we sell comes with a limited lifetime warranty on the shell, door, and door seal. That's because our tubs don't just look great on the outside, they're built with quality on the inside.

HYDROTHERAPY IS A LIFE UPGRADE

At Jetta, the healing and restorative benefits of hydrotherapy are not just a product upgrade, they're a life upgrade. We believe in the science – and we've committed our resources and time to being the leaders in bringing it to you in the comfort of your home.

THERE'S A REASON THE PROS PICK US

Builders and plumbers nationwide trust Jetta because we make bath systems without compromise and back them up with confidence. There are big-name brands out there with a lot of big marketing budgets, but the pros tell us time and again that we outdo them on delivery reliability and service follow-through.

SIMPLIFIED WALK-IN ORDERING

A FEW OF THE EXTRAS THAT MAKE JETTA WALK-INS STAND OUT

ACTIVE DRAIN TECHNOLOGY

While your comfort during bathing is of utmost importance, it's also important to maintain that comfort when you're done bathing. Jetta's unique active drain removes water in about 90 seconds so you can get out of the tub in less time.

SINGLE-CIRCUIT ELECTRICAL SYSTEM

One of the primary concerns we hear from people considering a walk-in tub is how the electric system works and if there will be a complex, expensive set-up necessary. But with Jetta's design, there's no need for complicated, multiple electrical circuits. The innovative construction requires only one circuit to power your tub.

DUAL WHIRLPOOL SYSTEM

Indulge in all-over soothing and invigoration with Jetta's dual whirlpool system that features jet systems on both the backrest and the footwell. And when you just want a relaxing foot soak, simply fill the footwell and enjoy the hydrotherapy benefits to your feet and calves without the need to fill the entire tub.

JETTA AIR

Soothe and stimulate wherever your body needs it with Jetta Air technology. Injectors push effervescent air bubbles throughout the tub with even pressure, featuring multiple modes you can adjust to your preference.

ACCESSORIES

Additional comfort accessories are available for when you just want a little extra indulgence. Choose from Contoured Neck Pillow (available on in-swing model) or Contoured Seat Cushion.

JETTA WARM

WITH JETTA, A COMFORTABLE BATH STARTS BEFORE YOU EVEN FILL THE TUB

With our exclusive JettaWarm technology inside your walk-in tub, you'll never need to worry about staying comfortable while the tub is filling or while the water is draining after your bath. Relax with an internal heating mechanism that warms the backrest as you fill the tub and prepare to bathe, stays warm for forty minutes, and keeps you comfortable while you drain the water before exiting. And remember ... as an added bonus, Jetta's active drain technology drains the water in approximately 90 seconds, so you'll spend much less time waiting to exit.

DIFFERENCE

1 ONE-PIECE CONSTRUCTION

Every Jetta walk-in tub is manufactured with one-piece construction, eliminating joint failures common in two-piece construction.

2 EASY INSTALLATION

Extension panels included with every tub ensure accurate fit and easy installation.

3 SLIP RESISTANT TEXTURE

Prevent slipping with gripped texture across the bottom area of foot bathing well.

4 U-BAR

Transition from seated to standing position easily and safely with an easy-to-grip u-bar for stability upon entry and exit.

5 GRAB BAR

Enjoy additional safety and support when moving from standing to sitting while in the tub.

6 LOW THRESHOLD

Ease entry and exit with a low threshold for safety and convenience.

7 LOCKING HANDLE

Bathe comfortably without the worry of the door opening accidentally.

8 JETTAWARM

No more uncomfortable back rests while the tub is filling, thanks to JettaWarm technology inside.

9 FRICTION HANDLE

Combined door handle and door seal designs work together to secure your tub for worry-free, leak-free bathing.

10 ACTIVE DRAIN

When you're done bathing, the active drain removes water in about 90 seconds so you can exit sooner.

11 EFFICIENT ELECTRICAL

There's no need for complicated, multiple electrical circuits. With Jetta's innovative construction, only one dedicated 20 amp circuit is needed to power your tub.

12 CONVENIENT POWER & OPERATING

Control your tub's features from either the mounted keypad or the floating remote control. All Therapy Plus and Therapy Premium tubs are equipped with both.

13 EXTRA COMFORTABLE JET DESIGN

You'll relax even more with the flush-mount design of the backrest jets. There's no bulkiness or bumpiness for maximum comfort throughout your bath.

HYDROTHERAPY

DO YOUR BODY & MIND A WHIRL OF GOOD

With the new Dual Zone JettaWhirl hydrotherapy feature, you can step into a therapeutic experience any time you feel the need for deep-tissue healing and rejuvenation. When you select either the Therapy Plus or Therapy Premium amenities package, your tub will be equipped with jets in both the upper part of the tub and the footwell, so you can indulge in all-over hydrotherapy or choose to simply fill the footwell and give your feet and lower legs a healing and stimulating soak.

For added comfort, any time JettaWhirl is activated, your bath water continues circulating through an internal inline heater system so the temperature stays regulated throughout your bath.

• **10 hydrotherapy jets include:**

- 6 flush-mount comfort back jets
- 2 flow-adjustable calf jets
- 2 flow-adjustable foot jets

Jets are powered by 1.5 BHP pump – and strategically placed to target those frequently overused muscles in the back, calves, and feet.

- **Footwell jets are removable for easy cleaning**
- **Easily adjust water pressure to your comfort level with a quick turn of the jet's outer ring**
- **Ensure sanitary bathing and eliminate corrosion with anti-microbial flex piping and arched plumbing design**

THERE'S A PEACEFUL FEELING IN THE AIR

Surround yourself with invigorating air bubbles designed to create a peaceful, soothing hydrotherapy experience. JettaAir's balanced flow throughout ensures even pressure from each injector so you can calm your mind and quiet your body. JettaAir is included in the Therapy Premium package.

- Seamless air injectors target all areas of body with strategic placement around perimeter of tub
- All JettaAir system tubs include mood lighting.
- Adjust air pressure to your own preference with the variable-speed blower.
- Air injectors can be set to three different modes: continuous, pulse, or wave.
- Be assured your bath is always clean and sanitary with the automatic purge-dry cycle.

COMFORT EVEN AFTER YOU FINISH BATHING

Creating a comfortable bathing experience is our biggest motivator at Jetta – and to us, that extends to making sure you're comfortable while the tub is draining as well. While many walk-in tubs take up to three minutes to fully drain so you can exit the tub, Jetta's unique active drain technology removes water in about 90 seconds.

JETTA'S ACTIVE DRAIN TECHNOLOGY

VS.

OTHER TUBS

JETTA'S SIMPLE 3-STEP ORDERING PROCESS

1

ACCESSIBILITY: Pick the set-up that meets your bathroom and physical requirements:

inswing or **outswing door**,
and **left-hand** or **right-hand drain**

Select the J90D model if the bather is able to stand and step into the tub independently.

OR

Select the J95D model if the bather needs assistance to transfer from a chair into the tub.

CHOOSE:

LEFT-HAND DRAIN

OR

RIGHT-HAND DRAIN

2

AMENITIES: Choose your preferred amenities from the **3 Jetta Walk-In Packages** below.

NOT SURE WHAT SOME OF THOSE FEATURES ARE? **WE CAN HELP!**

NEW!

Dual Zone Jetta Whirl Therapy System

2 jet zones target the legs and feet only or legs, feet and back. 6 back jets and 4 lower leg jets provide targeted massage. In-line heater maintains water temperature throughout bath.

JettaAir

Millions of air bubbles injected into the tub for relaxation and stimulation.

JettaWarm

Add extra comfort with radiant heat on the backrest of the tub. A touch of the button turns it on before the tub fills.

Active Drain

Pump technology enables the tub to drain through unobstructed plumbing in approximately 90 seconds.

Dual Control System

Convenient tub operation is always within reach with control panel on tub and floating remote.

All of our walk-in tub shells feature: single-piece construction with solid metal frame, low entry threshold, non-slip floor, grab bars for stability assistance, polished chrome ADA waste and overflow, extension panels for universal fit in spaces up to 60" wide.

WHAT OUR CUSTOMERS ARE SAYING ABOUT US.

Words from Jetta customers based across the nation

My husband and I are both in our eighties. His balance is really bad and he was not able to get in and out of the tub anymore. I wasn't able to help him much, so we knew we had to do something. Neither of us liked the idea of leaving our home, so we decided on a walk-in tub and it's working out really well.

My husband really enjoys it and can use it by himself and now I'm enjoying it myself, too. I like that I don't have to worry about slipping because I'm not that good on my feet anymore either. And when I use the jets, it's just so relaxing and it helps with the pain in my knees.

Once we decided we were going to stay in our home, we knew it would be worth it. Even if it's just five more years we have at home, it makes a big difference to be able to have that choice. - **MINNIE**

My experience with Jetta was phenomenal. After shopping around, Jetta truly has the best products for their price, with customer service that strives to go above and beyond. I loved the variety of choices, so I was able to find the tub that was exactly what I wanted. - **STEPHANIE**
